FEATURES & BENEFITS

The V-21 refrigeration system provides superior cooling performance while using less energy

24 volt, DC motors
No micro switches
No timing cams
Motors installed with only 2 screws

V-21 offers fast setup - Converting columns from bottles to cans has never been easier

- No shims, no spacers, no gauge bars, no gauge bar clips and no cams to adjust

- Simply move the back spacer, adjust the product slide and select the appropriate depth setting ***

- **Attractive** - Well-lit product display for maximum customer appeal
- **Easy to Maintain** - Quick disconnects at selection buttons and lights for fast servicing
- **Flexible** - Shimless vending of bottles and cans provides for optimal product mix and maximum vending profits
- **Dependable** - Time tested design ensures reliable and flawless vending, giving owners peace of mind
- **Security** - Lower 1/3 metal panel for protection and stability (flat front only)
 - Lower hinge hook assembly completely enclosed to help prevent vandal attacks
 - The V-21 anti-theft hopper is designed for easy access to vended packages
 - Reinforced top hinge plate with deadbolt for increased security
- **User-Friendly** - Conveniently located selection buttons and individual pricing label area directly below each displayed product
- **Sold Out/Ready to Vend Lights*** - Flash while vending to clearly identify activity (* only available on Cold Drink Model)
- **Refrigeration System** - The condenser and evaporator use copper and aluminum construction which reduces energy consumption. The V-21 fan blades are shrouded to greatly reduce audible noise and improve performance.

BRING PRODUCTS TO LIFE WITH V-21 LIVE DISPLAY...

Rugged top retainer ensures consistent product alignment every time door is closed

Modular power cord positioned for easy access from front of machine

Door-to-cabinet roller assembly for smooth door closure

Slide out loading rack allows for greater access to the columns during product loading

Epoxy coated vend chute for smooth product delivery

One piece air dam with integral condensation gutter
